SFC Licence: 
Unique Identifier (if applicable):

Consignor: 
Establishment Name (if applicable): 
Unique Identifier # (if applicable): 
Consignor SFC Licence #: 
SFC Licence Expiry Date: 
Cold Storage Licence #:

Date of Export:

Do animal health requirements apply to any of the products in this consignment : Yes  No

The lot will be available for inspection on:

At:

Additional information to follow: Yes  No

If yes, details on additional information:

Person submitting:  e-mail:  Tel #:

(Part A) - CFIA use by Inspector

Certificate reference number (if applicable) :

Referred for AH certification: Yes  No

Complete if forwarded to Veterinary inspector

- The product(s) contained in this request meet all Public Health requirements : Yes  No 
All establishments appear on the applicable EU import lists : Yes  No 
Establishments have a valid SFC licence with all applicable activities : Yes  No

Inspector Signature and Date

Part B

I, the undersigned, declare that following conditions have been met or arrangements have been made:

Note: When applicable, the consignor/exporter shall indicate the correct information by checking the appropriate box below.

II.2.2.1 If exporting aquaculture animals, they originate from an aquaculture establishment that
1. Is in a Province or territory which listed as meeting the requirements below, OR
2. I have verified that the aquaculture establishment from which I obtained the animals to be exported has a valid aquaculture license issued by the Province Territory OR Fisheries and Oceans Canada AND has RECORDS of the following:
(i) the species, categories and number of aquaculture animals on the aquaculture establishment;
(ii) movements of aquatic animals into, and aquaculture animals out of, the establishment;
(iii) mortality in the establishment
 Not applicable (exporting wild species)

<b>II.2.2.2</b>	<p>If exporting aquaculture animals, they originate from an aquaculture establishment that is in a Province or Territory that is subject to routine veterinary visits OR I have verified that the aquaculture establishment receives regular animal health visits from a veterinarian for the purpose of the detection of, and information on, signs of disease</p> <p><input type="checkbox"/> Not applicable (exporting wild species)</p>
<b>II.2.3.3.</b>	<p>The live wild or cultured aquatic animals or their dead products are to be shipped directly from the establishment of export to the European Union</p>
<b>II.2.5.</b>	<p>At the time of export, the live wild or cultured aquatic animals or the population from which the dead products were derived:</p> <p>(i) had no abnormal mortalities with an undetermined cause; (ii) were not subject to national restriction measures for animal health reasons or due to abnormal mortalities of undetermined cause; and (iii) were not intended to be killed under a national program for the eradication of diseases.</p>
<b>II.2.6.1.</b>	<p><input type="checkbox"/> If exporting live animals in water, arrangements have been made that the water in which they are transported is not changed in a third country or territory, zone or compartment which is not approved for entry of the particular species and category of aquatic animals into the European Union;</p> <p><input type="checkbox"/> Not applicable (if not transported in water)</p>
<b>II.2.6.2.</b>	<p>For live aquatic animals arrangements have been made that prior to loading for dispatch to the European Union, that the aquatic animals are not transported under conditions that jeopardize their health status, in particular:</p> <p>(i) if the animals are transported in water, it is done in a way that does not alter their health status; (ii) the means of transport and the containers are constructed in such a way that the health status of the aquatic animals is not jeopardized during transportation; (iii) that the <input type="checkbox"/> container <u>or</u> <input type="checkbox"/> well boat is either previously unused or cleaned and disinfected, in accordance with a protocol and with products approved by Canadian Food Inspection Agency,;</p> <p><input type="checkbox"/> Not applicable (For dead products)</p>
<b>II.2.6.3.</b>	<p>For live aquatic animals, arrangements have been made that from the time of loading at the establishment of origin until the time of arrival in the Union, the animals in the consignment are not transported in the same water or for</p> <p><input type="checkbox"/> container <u>or</u> <input type="checkbox"/> well-boat together with aquatic animals which are of a lower health status or which are not intended for entry into the European Union;</p> <p><input type="checkbox"/> Not applicable (When exporting dead products)</p>
<b>II.2.6.4.</b>	<p><input type="checkbox"/> For live aquatic animals, arrangements have been made that where a water exchange is necessary in a</p> <p><input type="checkbox"/> country, <input type="checkbox"/> territory, <input type="checkbox"/> zone, <u>or</u> <input type="checkbox"/> compartment which is listed for entry of the particular species and category of aquatic animals into the European Union:</p> <ul style="list-style-type: none"> <li>• <input type="checkbox"/> it only occurs in the case of transport on land, at water exchange points approved by the competent authority of the third country or territory where the water exchange takes place; or</li> <li>• <input type="checkbox"/> in the case of transport by well-boat, at a distance which is at least 10 km from any aquaculture establishments which are located en-route from the place of origin to the place of destination in the European Union.</li> </ul> <p><input type="checkbox"/> Not applicable (When exporting dead products or live products which are not transported in water.)</p>
<b>II.2.7. / II.2.7.1.</b>	<p>Arrangements have been made to identify and label the <input type="checkbox"/> means of transport <u>or</u> <input type="checkbox"/> containers with a <input type="checkbox"/> legible and visible label on the exterior of the container <u>or</u> an <input type="checkbox"/> entry in the ships manifest when transported by well boat, which clearly links the consignment to the animal health certificate;</p>
<b>II.2.7.2.</b>	<p><input type="checkbox"/> For live aquatic animals, arrangements have been made that the legible and visible label will contain at least the following information:</p> <p>(a) the number of containers in the consignment; (b) the name of the species present in each container; (c) the number of animals in each container for each of the species present; and (d) one of the following statements:</p> <ul style="list-style-type: none"> <li>○ <i>'live fish intended for human consumption in the European Union'</i></li> <li>○ <i>'live crustaceans intended for human consumption in the European Union'</i></li> <li>○ <i>'live molluscs intended for human consumption in the European Union'</i></li> </ul>
<b>II.2.7.3</b>	<p><input type="checkbox"/> For dead products, arrangements have been made that the legible and visible label will contain at least one of the following statements:</p> <ul style="list-style-type: none"> <li>○ <i>'fish intended for further processing in the European Union before human consumption'</i></li> <li>○ <i>'crustaceans intended for further processing in the European Union before human consumption'</i></li> <li>○ <i>'molluscs intended for human consumption after further processing in the European Union'</i></li> </ul>
