	If female, she is not more than 30 days pregnant or suckling young.			
If mated, date of last mating (dd/mm/yyyy)*:				
Microchip number:				
Site of microchip:				
Date of final examination and microchip scanning (within 5 days of export*, or within 48 hours of export if not vaccinated against canine influenza virus*) (dd/mm/yyyy):				

\*Strike through as required

**2. Test / Treatment Record**

Tests Conducted	Sample Collection Date (dd/mm/yyyy)	Test Type	Test Result
Rabies Neutralising Antibody Titre Test (RNATT)	1. Collection date: 2. Date arrived at laboratory:	FAVN* or RFFIT* (Positive at $\geq 0.5$ IU/mL)	
<i>Leishmania infantum</i>		IFAT* or ELISA* (Negative)	
<i>Leptospira</i> sv. <i>Canicola</i> * (testing not required if vaccinated)		MAT (Negative at 1:100)	
<i>Brucella canis</i> * (if not desexed)		RSAT* or TAT* or IFAT* (Negative)	
<i>Canine influenza virus</i> * (testing not required if vaccinated) (Note: testing is to be done within 7 days before the date of export)		PCR (Negative)	

\*Strike through as required

Vaccinations Administered	Vaccination Date(s) (dd/mm/yyyy)	Vaccination Type
Rabies vaccination		Vaccine name: Batch number: Expiry date of vaccine:
		Date next booster due:
<i>Leptospira</i> sv. <i>Canicola</i> vaccination* (if not tested) (Note: All current <i>Leptospira interrogans</i> sv. <i>Canicola</i> vaccinations and booster due dates must be recorded)  (Note: for dogs who have been continuously vaccinated according to manufacturer's guidelines, include both the current and previous vaccine information. For dogs receiving a primary series, include both vaccines comprising this primary series.)	1.	Vaccine name: Batch number: Expiry date of vaccine:
	2.	Date next booster due:
	1.	Vaccine name: Batch number: Expiry date of vaccine:
	2.*	Date next booster due:
Canine influenza virus vaccination* (if not tested)	1.	Vaccine name: Batch number: Expiry date of vaccine:
	2.*	Date next booster due:
	1.	Vaccine name: Batch number: Expiry date of vaccine:
	2.*	Date next booster due:

\*Strike through as required

Treatments Administered	Treatment Date(s) (dd/mm/yyyy)	Treatment Type
<i>Babesia canis rossii</i> * (dogs that have visited mainland Africa only)		Product name: Active ingredient(s): Dose rate:
External parasites	1.	Product name: Active ingredient(s): Dose rate:
	2.*	Product name: Active ingredient(s): Dose rate:
	3.*	Product name: Active ingredient(s): Dose rate:
Internal parasites	1.	Product name: Active ingredient(s): Dose rate:
	2.	Product name: Active ingredient(s): Dose rate:

\*Strike through as required

**3. Animal Health Declarations**

1. Either:

The dog was exported from Australia on \_\_\_/\_\_\_/\_\_\_ (dd/mm/yyyy) and a copy of the Australian export permit is attached.\*

OR

The dog underwent an identity verification on \_\_\_/\_\_\_/\_\_\_ (dd/mm/yyyy) which is at least 180 days prior to the scheduled date of export to Australia and a copy of the identification declaration is attached.\*

OR

The dog was not exported from Australia and has not undergone an identity verification.\*

\*Strike through as required

- The dog has been found to be free from signs of clinical or infectious disease during the final examination within 5 days of export\*

OR

If the dog has not been vaccinated against canine influenza virus, the dog has been found to be free from signs of clinical or infectious disease during the final examination within 48 hours of export\*.

\*Strike through as required

- The dog's rabies vaccination is current according to manufacturer directions at the scheduled date of export to Australia.
- The dog appears to be fit and healthy to undertake the journey to Australia and undergo quarantine.
- For dogs that have not been vaccinated against canine influenza virus\*:

I have no reason to doubt the declaration provided by the owner\*/exporter\*, that the dog described in this certificate has been isolated from other dogs and has not had direct contact with other dogs (unless those dogs are part of the same export shipment) for the 10 days immediately preceding the date of export to Australia; and

The dog was tested with a negative result for canine influenza virus by polymerase chain reaction on a nasal or deep pharyngeal swab collected within the 7 days prior to export; and

The dog was examined within 48 hours of export and found to be free from clinical signs of infectious or contagious disease.

\*Strike through as required

#### 4. Signature of Licensed Veterinarian

I certify that after due enquiry and to the best of my knowledge all the information provided in this Veterinary Health Certificate is true and the dog fully complies with the pre-export requirements described in the Australian import permit and the microchip number listed on all documentation matches the microchip number scanned on the animal described here.

<hr/> <i>Signature of Licensed Veterinarian</i>	Country of export:
	License number:
	Date certificate completed (dd/mm/yyyy):
	Name:
	Address:
	Phone number:
	Email contact:

**5. Endorsement by CFIA Veterinarian**

I certify that the Veterinarian that issued the Veterinary Health Certificate is licensed by their respective Provincial Licensing Organizations and the export preparations meet the export requirements described in the Australian import permit.

<hr/> <i>Signature of CFIA Veterinarian</i>    <i>Stamp of CFIA Veterinarian</i>	Country of export:
	Competent Authority: CANADIAN FOOD INSPECTION AGENCY
	Date certificate endorsed (dd/mm/yyyy):
	Name:
	Address:
